Compatibility of each piano with the application is as follows.

-Blank indicates it is not supported.
-Requirements vary depending on the connection method and operating system of the mobile device you use.
-Make sure your Roland piano model is updated with the most current system program. The latest system program and setup instructions can be found on the support pages at www.roland.com. (Except for Operating Systems that are not verified to work.)
- To learn about the parameters available in the Roland Piano App, please refer to the " Function Compatibility Info and Adjustable Parameter List " document.

*iPad Pro 9.7" is not supported.
**Rhythm function is not supported.
